

DIRECTIONS:

Surface Preparation: If necessary, floor should be stripped free of old wax or finish. Scrub floor thoroughly with a good detergent or neutral cleaner such as Detco's **Kwik Mop**. Rinse well with clear water and allow to dry thoroughly.

Application Procedure: Apply a thin, even coat of finish with a rayon mop or microfiber applicator. Allow at least 30 minutes of dry time. 2 to 3 coats are recommended for optimum performance. No buffing is required, but if the floor is to be buffed, wait at least 48 hours.

Typical coverage is 1,200 - 1,500 sq. ft. per gallon. Application rate will vary depending on surface and application method. Coverage can be increased to 1,500 - 2,000 sq. ft. when combined with Detco's **Undercoat** floor sealer.

Maintenance: Sweep or damp mop every day to remove surface dirt. When damp mopping, use a neutral cleaner such as Detco's **Kwik Mop**.

Note: Never use ammoniated cleaners for daily maintenance.

Magna Gloss 25

High Gloss Floor Finish

25% Solids Long Wearing Machine Scrubbable

CAUTION
KEEP OUT OF REACH OF CHILDREN
Net Contents: 5 gal (18.93 L)

Magna Gloss 25 combines the best features everyone wants in a floor finish. It dries to a brilliant gloss with no buffing required and can be cleaned with a neutral detergent without dulling the gloss or removing the finish.

Multiple coats give a magnificent depth of gloss that does not yellow with age. Polished floors are easy to maintain.
