

## DIRECTIONS

Always test in a small, inconspicuous area first.

### FOR CLEANEST CARPET:

Vacuum area to be cleaned to remove any loose dirt, lint or debris. Mix **HAPPY CARPET** at a rate of 1 oz of cleaner per 1 gallon of water for light soils, 3:1 for medium soils and 6:1 for heavy soils. Mix in hot water tank of extractor. Operate extractor unit according to the manufacturer's instructions then allow carpet to air dry before opening to traffic.

### FOR HARD-TO-REMOVE STAINS:

**HAPPY CARPET** also performs well with other Chem-Girl products such as, **Chem-Girl's GONE FOR GOOD** or **Chem-Girl's DESTROYER** as pre-spot cleaners for those extremely difficult stains. Dilutions will vary depending on condition of carpet.

1 QUART (0.95 L)

# FRESH!

# HAPPY CARPET

## CONCENTRATE

DYE & FRAGRANCE FREE  
LEAVES NO RESIDUE  
CARPET SHAMPOO

# INDUSTRIAL

**HAPPY CARPET** is low-foaming shampoo for use in carpet extraction machines and/or spot cleaning. It removes tough stain and prevents them from redepositing on the surface of the carpet. May be used on all color fast fibers, acrylic, nylon, polyester, rayon and wool.

**HAPPY CARPET** contains powerful wetting agents that break the bond between soil and carpet fibers while suspending insoluble soils in the shortest possible time. This is a critical step in the operation of hot water extraction shampoo machines.

KEEP OUT OF REACH OF CHILDREN

Wash hands after use.

#### INGREDIENTS:

Water, TAPP, Organic Solvent,  
Surfactants
